ARCHITECTS AND ENGINEERING SPECIFICATIONS

The Electret Condenser Microphone is a very low profile Boundary Layer Microphone with an Omni-Directional Polar Pattern. The microphone is constructed of brass and includes 9.9 ft (3 Metres) of screened cable. The Microphone includes a separate inline Phantom Power Adaptor which is to be powered by 9 to 48 volts. The in-line adaptor also includes filters which will eliminate all GSM frequencies from 800-1200 MHz. Impedance 200 Ohms @ 1KHz, frequency response 50 Hz to 18 KHz +/-3dB, sensitivity -47dB +/- 3dB @ 1Khz (0dB =1V/Pa), total Harmonic Distortion (THD) at an operating level of 120dB less than 1%. The Microphone includes 4 small rubber isolation feet to help minimise the transfer of mechanical noise and vibrations from the table. The Microphone has a non-reflective Black Nextel® or Grey Nextel® finish.
